Tutoring Experience

In my 5 years as a tutor, I have worked with students from various curricula, including IB, A-Level, and IGCSE, helping them excel in maths. My experience includes preparing students for challenging exams and guiding them through complex mathematical concepts like calculus and algebra.

I've had the opportunity to work with students from Italy and internationally, ensuring that they build a solid foundation in mathematics. I've developed unique strategies to help students overcome difficulties in understanding core concepts, which has led to significant improvements in their grades.
