Tutoring Experience

For the past decade, I've had the privilege of working with students from various educational backgrounds, particularly in IB and IGCSE Physics and Maths. My focus is always on helping students build a solid foundation in physics, ensuring they can tackle challenging exam questions with confidence.

Having taught in both national and international contexts, I've developed a unique approach that adapts to the individual learning styles of my students. Whether preparing for IB exams or mastering A-Level Physics concepts, my goal is to provide comprehensive support that leads to both improved grades and a deeper appreciation for the subject.
