## Tutoring Experience

Over the last five years, I've worked with students across international curricula, guiding them to success in IB ESS and related subjects. I've supported students from various backgrounds, ensuring they excel in both coursework and final exams, with many going on to pursue environmental science in higher education.

I have also tutored students in IGCSE and A-Level Environmental Science, providing personalised lessons that focus on building a strong understanding of environmental systems. My approach ensures that students gain confidence and are well-prepared for their academic challenges.
