Tutoring Experience

Over the past five years, I've worked with students from diverse backgrounds, guiding them through challenging topics in IB Biology and Environmental Science. I focus on helping students build a solid understanding of biological principles, which has led to significant improvement in their grades.

My tutoring experience has extended beyond the classroom, where I've mentored students in both IB and IGCSE curricula. Many of my students have gone on to achieve top results, and I've enjoyed watching their confidence grow as they master complex material.
